

Heavy Haul Transport & Logistics Guide (2025)

A practical reference for moving over-dimensional and heavy industrial machinery across borders. Intended for Service Providers (carriers, freight forwarders, and customs brokers) operating on machinery trading platforms.

1. The Service Provider Role

Service Providers facilitate the physical fulfilment of a machinery sale. They do not buy or sell the Goods; they are engaged by the Seller or Buyer to move, inspect, or clear equipment. Distinct service roles include: **transport carrier, rigging / heavy-lift specialist, machinery inspector, customs broker, and cargo insurer.**

2. Trailer / Equipment Types

Equipment Type	Typical Use	Max Load (tonnes)
Flatbed	Standard machinery up to deck height	24
Step Deck	Taller units needing lower deck	23
Double Drop / Lowboy	Tall, heavy equipment	40
Removable Gooseneck (RGN)	Drive-on tracked machines	70
Container	Dismantled / palletised machinery	28
Roll-On/Roll-Off	Self-propelled units, ocean legs	120
Heavy Haul Specialized	Super-loads, multi-axle	250

3. Service Regions

Carriers declare the regions they serve: North America, South America, Europe, Middle East,

Africa, South Asia, East Asia, Southeast Asia, and Oceania. Cross-border capability (Yes / No) and common lanes (e.g. Hamburg–Gdansk, Houston–Veracruz) should be stated in the provider profile.

4. Documentation & Customs

Cross-border machinery movement requires a commercial invoice, packing list, bill of lading, and where applicable a certificate of origin and import permit. Customs brokers handle duties, taxes, and tariff classification (HS codes) at origin and destination.

5. Carrier Compliance & Insurance

Carriers should hold relevant credentials: DOT Compliant (US), ADR (EU dangerous goods), TIR Carnet (transit), ISO 9001, and C-TPAT (supply-chain security). Cargo insurance coverage, expressed in USD, must be adequate to the declared value of the machinery in transit.

6. Headquarters Countries

Carriers on the platform are commonly headquartered in the United States, Canada, Mexico, Germany, Netherlands, Poland, UAE, Singapore, Australia, or Brazil.
